Mr. Ronnie Jay Ramos
Moog Control Corporation
Baguio City Economic Zone, Loakan Road
Baguio City, 2600, Philippines

Authorization of FAA-certificated Repair Stations located outside the United States with a revised capability list dated April 21st, 2022.

Dear Mr. Ramos,

This letter authorizes Moog Control Corporation, FAA certification No. O63Y132Y to perform maintenance and modifications on aeronautical products, excluding aircraft, under TCCA regulatory control pursuant to Section B, Paragraph 4.0, of the FAA/TCCA Maintenance Implementation Procedures (MIP).

This authorization is limited to aeronautical products manufactured by MOOG Inc. and the work performed must be within the ratings and limitations contained in your 14 CFR Part 145 certificate, operations specifications and capability list Form 303, revision date – April 21st, 2022. Any changes applied to your certificate, operations specifications, or capability list will invalidate this authorization and a new authorization request will be required by TCCA.

This TCCA authorization shall remain in effect until the FAA Repair Station Certificate expires October 31st, 2023 or if the certificate has been surrendered, suspended or revoked. In order to renew this authorization, TCCA requires Moog Control Corporation to provide their renewed certificate, and demonstrate compliance with the MIP Section B, Paragraph 4.1, as part of their new authorization request.

Regards,
